MEMORANDUM FOR: Executive Director
FROM: Deputy Director of Central Intelligence
SUBJECT: Career Trainee Program

From my second visit [] I find further evidence that something is amiss in the Career Trainee program. I also understand that there is considerable bitterness among some of the students--there was considerable surprise at the fact that 6 out of the 42 flunked. As I said some two months ago, some changes must be made and I want to remind you that I am eagerly awaiting for that to happen. I look to you to assess what must be done and to cause corrective measures to be implemented soonest.
